NOTICE OF INTENT TO TERMINATE PERMIT
FOR A SOLID WASTE DISPOSAL FACILITY

The Tennessee Department of Environment and Conservation (TDEC), Division of Solid Waste Management (DSWM), has tentatively decided to terminate the solid waste disposal facility permit for the U.S. Department of Energy's Y-12 Plant Demolition Landfill, currently permitted to U.S. Department of Energy. The facility, identified as DML 01-0036, is located on Chestnut Ridge, approximately $\frac{3}{4}$ of a mile southwest of the Y-12 Plant, in Anderson County, Tennessee (latitude 38°58'15" N/ longitude 84°16'05" W).

This facility is permitted for the disposal of construction and demolition wastes generated by the Y-12 Plant, the K-25 site, Oak Ridge National Laboratory, and other prime contractors working for U.S. Department of Energy in Oak Ridge, Tennessee. No hazardous wastes, as regulated by the Tennessee Hazardous Waste Management Act (Tennessee Code Annotated, Section 68-212-101, et. seq.) and the Rules adopted pursuant to the Act, were allowed to be accepted for disposal at this facility. The person responsible for operation of the facility is Mr. D. W. McCune, Manager, Waste Management Project, Bechtel Jacobs Company, LLC, P.O. Box 4699, Oak Ridge, TN 37831; telephone: 865-576-5280.

DSWM has determined that U.S. Department of Energy has satisfactorily completed the post closure care period. Previously, DSWM had approved in November 2003 the closure of this demolition landfill. On May 16, 2006, DSWM conducted a final inspection; and there were no field observations to justify extension of the post closure care activities. In addition, DSWM received on April 28, 2006 a formal request from Bechtel Jacobs Company, LLC to end post closure care. DSWM acknowledges that the U.S. Department of Energy Y-12 Plant Demolition Landfill has met closure and post closure requirements of their permit.

It is the present intent of DSWM, pending consideration of any contrary information received during the public comment period ending on March 5, 2007, that this permit be terminated. The background data leading up to this tentative decision are available for public inspection in the Public Access Area at the TDEC Knoxville Environmental Field Office, 3711 Middlebrook Pike, Knoxville, TN 37921; telephone: 865-594-6035.

During the public comment period provided, any interested person may submit written comments on the termination of the U.S. Department of Energy's Y-12 Plant Demolition Landfill permit. The public is invited to submit comments in writing to: Mr. Mike Apple, Director, Division of Solid Waste Management, 5th Floor, L&C Tower, 401 Church Street, Nashville, TN 37243-1535; telephone: 615-532-0780. Comments must be received by 4:30 p.m. CST on Monday, March 5, 2007, to assure consideration. After considering all public comments, the DSWM Director will issue a final decision, which can be viewed at the TDEC Environmental Field Office in Knoxville.

The Tennessee Department of Environment and Conservation is committed to principles of equal opportunity, equal access, and affirmative action. Contact the EEO/AA Coordinator at 1-888-867-7455 or the ADA Coordinator at 1-866-253-5827 for further information. Hearing impaired callers may use the Tennessee Relay Service at 1-800-848-0298.

Persons who wish to be on the Division of Solid Waste Management's mailing list should obtain a Mailing List Request form by calling or writing the Public Participation Officer, Division of Solid Waste Management, Tennessee Department of Environment and Conservation, 5th Floor, L & C Tower, 401 Church Street, Nashville TN 37243-1535, telephone: (615) 532-0798, email: solid.waste@state.tn.us.
